

Uploading a video to

We will upload videos to Seesaw to share what we've been working on and learning about.

Use your Google account to login to the Seesaw app. If you're not sure how to get the app - check out this website: <https://web.seesaw.me/platforms>.

1. Go to <https://app.seesaw.me> on a computer. Or install the Seesaw Class App on an iOS or Android device.

2. Choose "I'm a Student".

3. Type in your Seesaw account code or google email.

Remember, this code is like a password. Keep it safe!

If possible, we encourage you to upload a video to Seesaw **twice a week**. No more than two, please!

Remember to go into the Seesaw app and record your video in Seesaw. Here's a video tutorial on how to record and upload a video:

<https://www.youtube.com/watch?v=LyaTttvQY8E>

For each video, you will:

1. Choose one activity you've been working on that you'd like to share
2. Pick **two** of these questions to answer in your video:
 - What is a challenge you faced doing your activity and how did you overcome it?
 - What are you proud of? Why?
 - If you did this project again, what would you change?
3. Record a video answering these questions that is **a maximum of 2 minutes**

When you open up the Activities tab in Seesaw you will see a selection of activities for you to work on. Press the green and white plus button to edit the activity. Remember if you don't finish it you can save it and come back later to edit it. Your teacher will then comment and approve your post.

If you need help accessing your Google account or Seesaw, please contact your teacher during contact time
