Snail's Eye View

Hold the camera **low** to look **along an object**.

Imagine you were a snail slithering along the ground.

Possum's Eye View

Hold the camera **low** and against an object **looking upwards**. This can make the object look huge.

Imagine you were a possum looking up a tree.

Giant's Eye View

Hold the camera **above** the object **looking down**. This makes objects look small or weak.

Imagine you were a towering giant looking down at the ground.

Eye Level View

Hold the camera straight at the **same level as your eyes**.

Take the photo as you see it from your level. Be careful not to tilt the camera.
